## USER MANUAL L/H T70R LED INSPECTION LIGHT

### BEFORE USING FOR THE FIRST TIME

Please ensure you read and understand these instructions clearly before using this product for the first time. Failure to do so could result in personal injury or damage to the product. It is important you retain this user manual for future reference.

### SAFETY PRECAUTIONS

- ▶ Do not use the torch in the immediate vicinity of inflammable materials or gases.
- ▶ Make sure that the torch lens is not covered during use.
- ▶ Only use the accessories included with this product when charging the torch.
- ▶ Keep the torch out of reach of children and pets.
- ▶ Do not point the torch directly in your own, any other person's or animals eyes.
- ▶ Always check the mains cable before using the charger. If the cable or any part of the charger is damaged, replace with a like for like spare.

### TECHNICAL DATA

|                |                                       |
|----------------|---------------------------------------|
| BATTERY TYPE   | 3.7V Lithium-ion 2500mAh Rechargeable |
| LED TYPE       | SMD LED                               |
| BRIGHTNESS     | 700 / 120 Lumens                      |
| AMBIENT TEMP   | -10°C to +45°C                        |
| USAGE TIME     | Up to 10 Hours                        |
| CHARGE TIME    | 4 Hours (Approx.)                     |
| IMPACT RATING  | IK08                                  |
| CHARGING INPUT | 5V 1000mA                             |
| SUPPLIED WITH  | 1M USB-C Charging Lead                |

### BATTERY RECHARGING

- ▶ Ensure the battery is fully charged before using the torch for the first time.
- ▶ It is important for the torch to be charged every three months to maintain the optimum condition of the battery.
- ▶ The battery charge status can be determined by reading the battery charge indicator. If all LEDs are lit, the torch is fully charged.

Under optimum conditions, with a full charge, the light can usually be used for 3 hours in worklight mode or 9 hours in spotlight mode.

To achieve the best performance from this inspection light, always switch the light off when the battery power begins to run low and recharge immediately.

Ensure the battery is fully charged for a minimum of 4 hours before being used for the first time, this will provide the battery with sufficient power for optimum performance now and for future recharging cycles.

### USING THE CHARGING CABLE

While on charge, the small charging indicator lamp will glow red and will turn green when the battery is fully charged (approx. 4 hours).

The light can be charged from any USB regulated outlet such as a laptop

### OPERATING INSTRUCTIONS

The inspection light output functions are controlled by a sequential switch on the front of the light. Repeated switch operation will cycle between the worklight and spotlight output modes.

### CLEANING

Use a soft cloth or cotton swab with water or medical alcohol to clean the lens. Care should be taken during cleaning. Allow the torch to completely dry before using. Do not use any harsh chemicals or abrasive materials when cleaning, as this may damage the torch.

### DISPOSAL OF THIS PRODUCT

If at some point you intend to dispose of this product, please keep in mind that many of its components consist of valuable materials which can be recycled. Please do not dispose of this product in the household waste check instead with your local council for recycling facilities in your area.

Do not dispose of used batteries in the household waste, or expose to fire. Lighthouse hold no responsibility for personal injury or damage caused by incorrectly disposing of batteries.

The plastic in this product may contain chemicals known by the state of California to cause cancer and birth defects or other reproductive harm.

### GUARANTEE

Rechargeable battery life depends on many factors and the cells can become easily damaged, dependent on environmental and storage conditions. Your product is guaranteed from defect for a period of **1 year** this excludes the battery which is covered for 90 days from the date of purchase, if you notice the running or charge times decreasing this is normal over the lifetime of the battery and is classed as fair wear and tear.

There will be some items within our range which will be non-serviceable but, in most cases we can supply replacement batteries for our products.
