

## Noise and vibration

### NOTE

Values for the A-weighted sound pressure level and for the total vibration values can be found in the "Technical specifications" table. The noise and vibration values have been determined in accordance with EN 60745.

### CAUTION!

The indicated measurements refer to new power tools. Daily use causes the noise and vibration values to change.

### NOTE

The vibration emission level given in this information sheet has been measured in accordance with a standardised test given in EN 60745 and may be used to compare one tool with another. It may be used for a preliminary assessment of exposure. The declared vibration emission level represents the main applications of the tool. However if the tool is used for different applications, with different accessories or poorly maintained, the vibration emission may differ. This may significantly increase the exposure level over the total working period. However if the tool is used for different applications, with different accessories or poorly maintained, the vibration emission may differ. This may significantly decrease the exposure level over the total working period. Identify additional safety measures to protect the operator from the effects of vibration such as: maintain the tool and the accessories, keep the hands warm, organisation of work patterns.

### CAUTION!

Wear ear protection at a sound pressure above 85 dB(A).

## Disposal information

### WARNING!

Render redundant power tools unusable by removing the power cord.

EU countries only

Do not throw electric power tools into the household waste!

In accordance with the European Directive 2012/19/EC on Waste Electrical and Electronic Equipment and transposition into national law used electric power tools must be collected separately and recycled in an environmentally friendly manner.

### NOTE

Please ask your dealer about disposal options!

## CE-Declaration of Conformity

We declare under our sole responsibility that the product described under "Technical Data" conforms to the following standards or normative documents:

EN 60745 in accordance with the regulations of the directives 2004/108/EC, 2006/42/EC, 2011/65/EC.
