USER MANUAL L/H SLT38
38W SITE LIGHT

BEFORE USING FOR THE FIRST TIME

Please ensure you read and understand these instructions clearly before using this product for the first time. Failure to do so could result in personal injury or damage to the product. It is important you retain this user manual for future reference.

SAFETY PRECAUTIONS

- Do not use the site light in the immediate vicinity of inflammable materials or gases.
- Make sure that the light is not covered during use.
- Do not use this site light if any part is damaged.
- Keep the site light out of reach of children and pets.
- Do not point the beam directly in your own, any other person's or animals eyes.
- Always check the mains cable before using the site light. If any part appears damaged, do not use until repaired by a qualified technician. If any repair has been carried out by unauthorised personal, it may void any warranty associated with this product.
- Always check that the voltage displayed on the product is the same as the power source.
- Never use an electrical appliance in the rain, in wet areas or with wet hands. Using an electrical appliance under these conditions greatly increases the possibility of electric shock.
